Resource Maps from April 27, 2016 Community Issues Forum on the Art of Belonging

During the event, each of the 16 tables were asked to brainstorm current organizations or individuals that were doing good work on making Fort Collins a welcoming place. Solid lines were drawn between those that already worked together, and dotted lines between those that didn't but should. CPD staff is currently analyzing these maps, and that analysis will be available in the final report when it is completed later in the summer.
